FEHRM Industry Roundtable

Virtual Event   June 7, 2023   12:00PM to 2:00PM Eastern Time (ET)

The Federal Electronic Health Record Modernization (FEHRM) office is excited to bring together federal agencies, industry leaders and others to discuss the current and future state of the federal electronic health record (EHR), health information technology and health information exchange. The theme for the 14th FEHRM Industry Roundtable is *Implementation Successes*. The roundtable will feature updates from the FEHRM, Department of Defense (DOD), Department of Veterans Affairs (VA) and Department of Homeland Security's U.S. Coast Guard (USCG) on their federal EHR efforts. There will also be interactive discussion panels with site leaders on their successful experiences implementing and using the federal EHR and with federal agencies on their progress with exchanging health data to enhance health care delivery for Service members, Veterans and other beneficiaries.

The virtual event is available via Microsoft Teams and open to the public. RSVP before June 5, 2023, at https://touchpoints.app.cloud.gov/touchpoints/dc625023/submit.
